

Support and Care For Dennis Dannenberg

Dennis Dannenberg has been diagnosed with terminal lung cancer which is in advanced stages and inoperable. Dennis began chemo this Week which will help with some of the effects of the lung cancer. As a way to support Dennis and his wife, Alana, a Carepage has been developed. This will help the Dannenberg's or their RLG to share updates with our congregation as well as a way for you to share prayers and support for Dennis and Alana.

The address is www.carepages.com. There will be a link on Bidwell's web site (Home Page) as well. Our address is www.bidwellpres.org.

If you are already a member of Carepages, your login and password should be applicable for Dennis' carepage (skip to step 8).

If you are not currently a member of Carepages, please follow steps 1-7 below:

9. Dennis' carepage is listed in the Carepages website section. Click on **PrayerForDennis**.
10. This will take you to his Carepage where you can read the updates posted by the Dannenberg's or their RLG. You can also post messages to back to them.

As the Dannenberg's or their RLG post updates, Carepages will notify you via email and will provide a link which will take you directly to Dennis' Carepage. You will still need to log in with your email and password before his care page will open, but you won't have to search for his page. Please remember to hold up Dennis and Alana in your prayers.
